Argument by Counsel for State and
Defense Put Off Until Two This
Afternoon.

Coshocton, Nov. 30—(3:30 p. m.)
Arguments in a motion for a new
trial for Mrs. Lingafelter were com-
menced at 2:30 and are still in pro-
gress.

Coshocton, O., Nov. 30—James F.
Lingafelter and his wife arrived from
Newark this morning together with
the lawyers interested in Mary J.
Lingafelter's forgery case. This was
the day set by Judge Robert H.
Campbell of Ashland, for hearing the

JUDGE R. M. CAMPBELL.

motion for a new trial in Mrs. Lingafelter's case. The case was not presented to the court this morning, as was expected, owing to the fact that lawyers for the defense were busy in consultation. At noon it was announced that the motion would be argued this afternoon beginning at 2 o'clock.

When Mr. and Mrs. Lingafelter left the court room they stopped for a moment in the hallway. Two Age reporters each with a camera, who had been waiting for an opportune moment, pointed the instruments at the pair and snapped. The light was strong, and in all probability one or both of the pictures will be fairly good.

The reporters immediately "ducked," and James F. Lingafelter dashed after them. He finally caught up with one of the boys, to whom he remarked that Mrs. Lingafelter had had enough trouble already and that neither he nor she wanted her picture in any paper. He begged, then threatened and indicated that there might be trouble unless his wishes in the matter were complied with. With that Lingafelter went off to talk to his attorneys about it.

FORTY ARE KILLED

Dortmund, Germany, Nov. 30—The explosion of the rubberite factory near Annen, detailed in Thursday's news dispatches, resulted, so far as is now known, in the death of 40 persons. Many others were so seriously injured that there is no hope of their living. Many persons have not yet been accounted for. Among the injured are about 200 employees of the factory, and the total of persons dangerously and slightly injured reaches several hundred.

Herring Catch.
St. Johns, Nov. 30—Thus far in the present fishing season about 25,000 barrels of salted herring have been taken from Bay of Islands. Ten vessels will sail for the fishing grounds this week. The weather is not yet cold enough to freeze the fish, and frozen cargoes will not begin to come in until Dec. 10.

TWO UTICA SISTERS
ENTERTAIN THEIR
FIVE GRANDMOTHERS.
Utica, O., Nov. 30—Juanita and Bernice Oldaker, daughters of Mr. and Mrs. Arthur Oldaker, entertained their five grandmothers and great grandmothers Thanksgiving day. The honored ladies are Mrs. Sellers, Mrs. Bricker and Mrs. McWilliam, great grandmothers, and Mrs. Oldaker and Mrs. McWilliam, grandmothers.

OPERATOR MADDUX
HAS DISAPPEARED
FROM WRECK SCENE

FURTHER DETAILS OF ACCIDENT WHICH COST LIFE OF PRES. SPENCER.

AND SEVERAL OF HIS GUESTS

Six People Killed and Eleven Others
Received Serious Injuries—The
President's Car Smashed.

Washington, Nov. 30—The Southern railway today started a vigorous investigation as to the responsibility for the disaster at Lawyers, Va., on Thanksgiving morning, which resulted in the deaths of President Spencer and his hunting trip guests. It is stated that the fault rests solely with an operator, either the one at Lawyers or the one at Rangoon. D. J. Maddux, who was at the key at the latter place, disappeared, and a warrant is out for his arrest.

The bodies of Philip Schuyler, of N.Y. York, and Charles D. Fisher, and Francis L. Redwood were sent to their late homes today. That of Mr. Spencer was taken to a local undertaking establishment. The funeral will be held tomorrow. This is the first instance in the country's history where a railway president was killed in a wreck on his own line. An official statement regarding the wreck was issued by General Counsel Thom of the Southern, today.

Washington, Nov. 30—A special train has arrived from the scene of the frightful Southern railway wreck early details of which were exclusively telegraphed to the Advocate yesterday, bringing the bodies of President Samuel Spencer, Philip Schuyler of New York, Charles D. Fisher and Frank T. Redwood of Baltimore and an unidentified negro porter. The body of Mr. Spencer was taken in charge at the train by a local undertaker. The body of Mr. Schuyler was sent on to New York, and the bodies of Fisher and Redwood were taken to Baltimore.

Additional details of this wreck, which cost the life of one of America's most prominent railway men and a number of his associates are given in the following message:

Lynchburg, Va., Nov. 30.—In the rear-end collision between two fast passenger trains 10 miles south of this city, Samuel Spencer, president of the Southern railroad, and five others were killed, and 11 persons, the majority of whom are negroes, injured. Philip Schuyler, a retired capitalist of New York, was among the killed, together with other guests of Mr. Spencer. Only Mr. Spencer's private secretary, E. A. Merrill of New York city, and one of the three porters, survived the accident. The death list: President Samuel Spencer, New York city; Charles D. Fisher, Baltimore; D. W. Davis, Alexandria, Va., private dispatcher to President Spencer; William Pollard, negro porter on President Spencer's car, who died in a hospital here; an unknown person, whose head and limbs are burned off short, who is believed to be the third porter on the private car, who is missing.

Mr. Spencer's destination was Friendship, N. C., where he was going on a hunting trip with Messrs. Fisher, Schuyler, Redwood and Merrill as his guests.

The collision was between the Jacksonville express and the Washington and southwestern vestibule limited, both southbound. President Spencer and his party, as far as is known, were sleeping when the collision occurred, and the probabilities are that all of them excepting Dispatcher Davis were killed instantly. It is certain that life was extinct before the flames touched them. President Spencer's body was burned almost beyond recognition, as was that of Mr. Fisher. The body of Mr. Schuyler was taken from under the train before it was burned very much, having been singed only slightly. President Spencer's car was attached to the rear of the Jacksonville train, which was standing still when struck.

The impact drove the combination car forward and the express car lifted up, together with its trucks, and crushed the car 40 feet, leaving the remainder of the car strewn with tons of baggage and colored passengers, who were pushed back like rats as the express car crushed the combination car. The combination car did not leave the track, and in clearing the track the express car was hauled to a siding a mile distant on top and in the debris of the combination car. How the negro passengers in this compartment, which is known as the "Jim crow" part of the train, escaped, none of them being killed, is beyond explanation. A number of them, however, sustained severe injuries.

The Jacksonville express had the right of way in the block and the en-

"THE" ALLEN

New York, Nov. 30.—Designating by name one Police Inspector, as well as other high officials in the department, in such a connection as to indicate that they had received money as the price of keeping their eyes shut to what was going on in "The" Allen's poolroom, in Six'h avenue, several letters came into the possession of District Attorney Jerome this week. In his opinion they form the most important discovery he has made in his fight against gambling and blackmail by the police.

These letters, a dozen in all, fell into the hands of the District Attorney, by reason of one of his most radical departures from his ordinary methods. They were found after "The" Allen's private residence, No. 17 West Eighth street, had been ransacked by detectives. Not only were they confiscated, but Allen's check book, with many names on the stubs, and a quantity of gambling paraphernalia, with telegraph and telephone instruments, 74 years old, Allen went at the engine broke away from the train and proceeded two miles, one of which was beyond Lawyers, before the engineer noticed he was without his train. It may be that when he passed Lawyers the operator gave Rangoon a clear track without noticing whether the rear-end markers were to be seen before he did so.

D. J. Maddux, the operator at Rangoon, who was on duty at the time of the accident, has disappeared, it is said, and he can not be found, although railway officials have made an effort to locate him.

A number ransacked the wrecked cars for plunder. Some of the passengers are said to have participated in this, and a large amount of jewels and money scattered about the debris was taken. A porter was seen to go through a woman's grip and throw away things of no value to him and appropriate those things that he wanted.

Police Hunting
ALLEGED SUICIDE
SUIT OF CLOTHES FOUND ALONG
CREEK BANK NEAR MAIN
STREET.

Garments Bought in Newark But the
Owner Cannot be Located—May
Have Been Drunk.

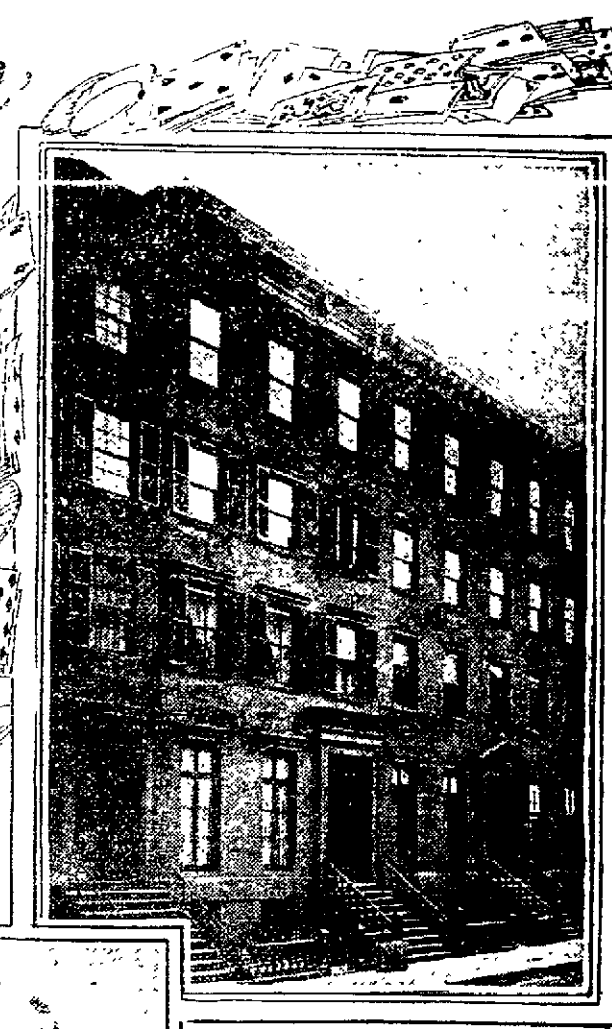

Chief Sheridan has a real mystery to unravel and there seems to be no clue.

Friday morning a man brought to the city prison a coat, hat and trousers which he found along the creek bank just south of the East Main street bridge, near the city prison.

The hat is a soft felt hat of Dunlap make with the name "King Company" stamped upon it. The coat is of blue serge and was purchased at the Great Western. The hat and trousers are practically new, but the coat was well worn. The trousers were of dark mixed goods with a sort of "invisible" plaid effect.

The coat and trousers were well spattered with mud but not a sign of a mark or papers was found that would lead to the identity of the owner.

A thorough examination was made of the banks along the creek, but there was not a sign that would lead the officers to believe that a suicide had taken place there. The theory that is the best explanation of the "find" is that some man well "soaked" got a foolish notion that he was in his boudoir and proceeded to disrobe and get into bed. He probably learned his mistake after the chilly winds had sobered him to a certain extent.

RESIDENCE OF "THE" ALLEN
IN WEST 8TH STREET

Mr. Jerome may extend to them all the leniency persons whom he will have before the grand jury in the endeavor to learn what they know of the payment of money to the inspector and other policemen. Should they reveal all they know and answer truthfully, so that a crime may be fastened on the policemen involved, Mr. Jerome may extend to them all the leniency in his power. But, on the other hand, any endeavor to shield what is believed to be the "man higher up" will bring down upon their heads all his wrath.

One of those who may be asked to visit Mr. Jerome is Nat C. Goodwin, whose name was mentioned in connection with the loss of \$62,000 by Theodore Barret of Louisville, in a gambling house in West Thirty-fifth street last week.

With the letters at his command, vasion of his home, and the sight of a police patrol wagon at the curb in front of the house only added to his grief.

BIG SENSATION CREATED
WHEN FOUR OF SIXTEEN MEN
PLEADED GUILTY IN COURT

Jury Had Just Been Secured at Cost of \$28,000, Nearly
7,000 Men Having Been Examined--Will Four
Teamsters Turn State's Evidence?

Chicago, Nov. 30.—Four of the 16 defendants on trial with Cornelius Shea, international president of the Teamsters' Union, on the charge of conspiring to injure the business of Montgomery Ward & company, by declaring the big teamsters' strike several months ago, created a tremendous sensation in court this morning by entering pleas of guilty.

This unexpected surprise came with such suddenness that Judge Ball immediately adjourned the hearing until this afternoon.

Those who announced that they were guilty of the crime against them were Albert Young, James McFarland, and Thomas J. White. The fourth, who was a member of the "swindling crew," was Joseph Schatz. The news of their pleas spread like wildfire throughout labor circles. To the unionists it was like a thunder bolt from a clear sky.

The pleas of guilty is taken to mean that the four men will turn state's evidence in the hope that the prosecution will recommend a light sentence for them. It is expected that the winners stand they will unfold the story of alleged conspiracy, the three testimony will be of the most sensational variety, for they are enemies of Shea, especially Young, who was a member of the union at the last convention. The last plea was selected yesterday, at a total cost of \$28,000 and 2 1/2 months time. Since Sept. 11, a secret hearing has been examined. All or any of the defendants may be found not to exceed \$2,000 or be a member of the "swindling crew," having been in a bad way for 5 years or Joseph Schatz. The news of their pleas.

NO CONCLUSIVE EVIDENCE AGAINST HER.

Nov. 30—The police report of Mrs. C. C. Cook, who has been charged with the murder of her husband, Mrs. Cook, who was found dead in a rooming house, was not conclusive against her. The police report stated that Mrs. Cook was found in a rooming house, and that she was the only person in the room at the time of the murder. The police report also stated that Mrs. Cook was found with a knife in her hand, and that she was the only person in the room at the time of the murder.

MILLIONAIRE PRISONER MAD ABOUT IT.

New York, Nov. 30.—Henry J. Potts, who was charged with the murder of his wife, was found mad about it. Potts, who was a millionaire, was found in a state of mind that was not conducive to a fair trial. The court decided that Potts was not competent to stand trial, and that he should be committed to a mental hospital. Potts was found in a rooming house, and that he was the only person in the room at the time of the murder. The police report also stated that Potts was found with a knife in his hand, and that he was the only person in the room at the time of the murder.

NOW LOOKING FOR A NEGRO

Cravenette Tallies With Description
of Coat Worn by Man on Fifth
Avenue Car.

Dayton, O., Nov. 30—What may prove to be a clue in the Gilman murder, was the finding of a discarded coat, vest and cravenette in a vacant lot in North Dayton. The place is five miles from the scene of the murder. The clothes were found by Lyman Springer, a boy. The cravenette is of dark slate color, and has blood stains on it. In the pockets were found a package of tobacco, cigarette papers, a handkerchief marked "T" and a slip of paper with the name "Dona" and a number written on it. The clothes are in good condition and had apparently been discarded in haste.

The cravenette tallies with the description of the coat said to have been worn by the negro who rode on the Fifth street car with Dona Gilman the night she was murdered. Some of the officials who are working on the case are inclined to look upon the coat as a hoax.

The authorities are busily engaged in a hunt for a negro who has been missing from home for several days.

TEN CONVICTS OUT

New York, Nov. 30—Ten convicts in Queens county jail, Long Island City, saved their way out early today and escaped. A reward of \$1,000 has been offered for their apprehension.

NEW YORK NEGROES

At Union Thanksgiving Service Dis-
missed President for Dismiss-
ing Texas Soldiers.

New York, Nov. 30.—At a union Thanksgiving service in which the members of four negro churches of this city participated, President Roosevelt was denounced for his action in dismissing three companies of negro soldiers from the United States army. At the conclusion of the service, which was held in the Mount Olivet Baptist church, nearly every one present made a contribution to a fund which is being raised for the relief of the dismissed soldiers.

BE PAID FINE
DIDN'T GO TO JAIL

Norfolk, Va., Nov. 30—Captain Andrew Crockett, of Chesapeake bay oyster peonage fame, the first man convicted under the new federal shanghaiing laws, was given the preference of paying a \$500 fine or serving six months in jail. He paid the fine and Federal Judge Warrill released him of \$300 costs.

Emperor William's Gift.
Berlin, Nov. 30.—Emperor William, in recognition of Thanksgiving, has presented a large photograph of himself to the American church here. The Rev. Dr. Dickie, the pastor, announced that it would be hung in the church library by the side of the picture of President Roosevelt.

CONVERSE'S REPORT.

Washington, Nov. 30.—In view of the recent anti-American agitation in Japan, there is believed to be considerable significance in the annual report of Rear Admiral Converse, chief of the bureau of navigation, made public today. The necessity of keeping the United States navy in a condition of full preparedness for war is the keynote of the report.

MAY CAUSE TROUBLE.

Havana, Nov. 30.—Governor Magoo is to ask for the resignation of all senators and representatives elected at the last election. In case the resignations are refused, he says he will declare the election illegal and the seats of the members affected vacant. It is believed that Magoo's move will produce a serious trouble.

Extracts From Grace Brown's Letters

About Them Today.

Herkimer, N. Y., Nov. 30.—Fortified by stimulants to brace his weakened nerves, Chester Gillette faced today a cross-examination in his trial which will determine whether he will be adjudged guilty or innocent of the murder of Grace Brown.

His counsel fear he will collapse before the ordeal is over. District Attorney Ward said today that he thought Gillette would be under cross-examination all day and possibly tomorrow.

The court room was packed with people to hear Gillette's testimony. When the doors were opened there was a mad rush.

The prosecutor picked up a silk dress and showing it to the witness asked him if Miss Brown had not shown it to him. Gillette admitted that he had seen the dress. It was a part of Grace Brown's pitiful trousseau.

"Then why did you say you did not know what Miss Brown meant when she wrote you about her dress?" snapped Ward.

"I didn't understand your question," weakly responded Gillette.

Mr. Ward read extracts from Grace Brown's letters in which she complained to Gillette because on the holidays he never took her but went with other girls.

Gillette said he had no reason for doing so.

Mr. Ward called Gillette's attention to two letters written by the witness and asked him when he first learned that Grace was in serious trouble.

Gillette said he thought it was about April first. The letters previous to this date were full of loving expressions. After the date there was a distinct coolness.

The prosecution went at the witness like a bull dog and shook out of him the information that he had not been afraid to call at the Brown home up until the time he learned of Grace's misfortune.

Gillette admitted writing harsh letters to the girl after that.

Accident Happened on River Bank,
But Engineer Had Good Control
of Locomotive.

A special dispatch to the Advocate from Coshocton tells of the narrow escape passengers on Pan Handle No. 3, due in Newark at 6 p. m. had just east of Coshocton Thursday afternoon.

The long train loaded with Thanksgiving day passengers was bowling along at the rate of 40 miles an hour when a bolt holding the pilot broke loose, letting the pilot fall and causing the front trucks of the engine to leave the track.

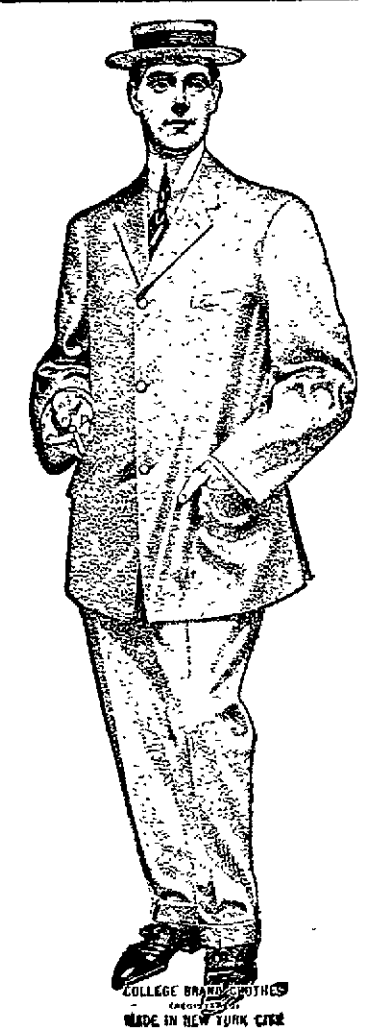

The engineer, fortunately, was quick to act and he succeeded in bringing the train to a stop before further damage was done. Had the train been running at a higher speed, the result is awful to contemplate, as the point where the accident occurred is on the high bank along the Tuscarawas river.

THE JAP PROBLEM

Washington, Nov. 30.—President Roosevelt is holding a consultation today with Professor Benjamin Ide Wheeler, head of the University of California, upon the Japanese situation. Beyond saying that the Japanese problem is growing more and more acute, Wheeler refused to discuss the matter for publication.

W. P. Dillworth, proprietor of the Dillworth Hardware company's store at Oklahoma City, Okla., was shot and probably fatally wounded by a man in an attempt to rob the store. The robber escaped.

PAID EACH NOTE WHEN 'T WAS DUE

NO ONE SUFFERED BY HIS ACTS YET CALHOUN IS SENT TO PRISON.

Man Tried Three Times and at Last Convicted—A Very Peculiar Case.

Columbus, Nov. 30.—After having gone through the ordeal of three trials and being under fear of sentence to the penitentiary for over a year, Louis B. Calhoun was received in time to spend Thanksgiving at the penitentiary, from Summit county. He will serve two years for uttering a forged promissory note.

The case of Calhoun attracted a great deal of attention at Akron. He was running a branch piano store for A. B. Smith, an Akron merchant. Calhoun sold pianos for cash and taking the money for himself, forged notes from the persons who bought the goods. These notes were for \$5 each and he deposited them with the bank, leaving the Smith company under the impression that he sold the pianos on payments.

In some manner he was detected and brought to account. His friends offered to settle. It was agreed that Calhoun paid the notes, each month, as they came due and this was proved true. Yet, he had forged, and after three trials in which there was much wrangling he was at last sentenced and brought to the penitentiary.

TO PLAY PIANO FOR 26 HOURS

MR. WATERBURY COMES HERE TO BREAK RECORD AT A NEWARK STORE.

Will Start Playing at Stewart & Alward's Tonight and Keep It Up Till Saturday Night.

In an effort to break his former record and make a new one of 26 hours of continuous playing on the piano, Mr. J. M. Waterbury, of New York City, champion piano player of the country, will start in tonight at 8 o'clock in the show window of the Stewart & Alward furniture store, and make an effort to finish not before 10 o'clock Saturday night. Mr. Waterbury trains for this great feat much the same as a prize fighter or track athlete would train. He claims to be in only fair condition for the big strain but will make a superhuman effort to make the 26 hour record.

Mr. Waterbury in conversation with an Advocate reporter, told of his taking up this unusual line of business. His first feat of "long distance" piano playing was performed in New York City seven years ago, when he entered a contest with a young woman for a prize. At that time he played 25 hours, his fair opponent quitting an hour before. The contest took place before the Men's Club. Since that time Mr. Waterbury has entered many contests, the last being at Wichita, Kas. He has frequently played for 17 and 18 hours. Week before last in Chicago, Mr. Waterbury made a record of 25 25 hours and 15 minutes, this being his longest record.

Mr. Waterbury is particularly anxious to make his record here of 26 hours. An Eastern piano firm will watch the result of this event with interest, having offered the man a

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs of the body and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both Home of Swamp-Root, sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention taking this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Three Primary Requisites

CIGAR EDITORIALS—No. 5

In the making of GOOD CIGARS there are three primary requisites:

First—The knowing how—that's KNOWLEDGE.

Second—The proper facilities—that's EQUIPMENT.

Third—Wanting to do it—that's DISPOSITION.

If but a single one of these factors is lacking in a manufacturing organization a good product is impossible.

It is the possession of these three essential elements, together with the necessary capital intelligently applied, that has made it possible for the American Cigar Company to improve cigar values to such a great extent during the past few years.

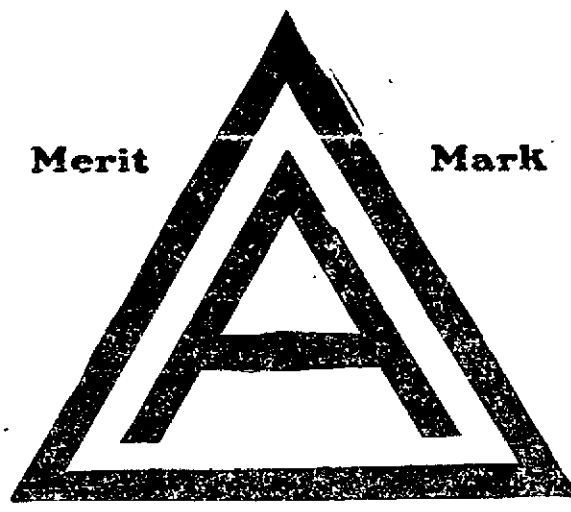

This improvement in quality is particularly evident in such a well-known cigar as the **Tarita** sold at 5c.—this brand represents a value formerly sold at 10c.

This "A" (Triangle A) Merit Mark on a box of cigars is the sign by which this improved quality may be known.

The three sides of this Triangle are of equal length and stand for *Knowledge, Equipment and Disposition*. This "A" mark is insurance to the smoker that these three essential factors have been applied to give the smoker honest cigar values.

BRIDEGROOM HAD NO LICENSE

WEDDING CEREMONY DELAYED THANKSGIVING DAY TILL ONE WAS SECURED.

Band Hired for Occasion—Crowd Assembled at Court House and Couple Showered.

Probably the most spectacular wedding that ever took place in Newark, occurred on Thanksgiving afternoon, when John Serefsky, a Slav, 22 years of age, and Mary Marinchsk, 22 years old, a native of Hungary, were married under almost insurmountable difficulties. The groom, who is employed at the Wehrle stove foundry, had been courting the young woman for some time and arrangements were made to be married in the presence of a few of their countrymen at the home of the bride in the West End. Thanksgiving day was decided on as the day on which the marriage was to take place and arrangements were made to celebrate the event on a large scale. The ceremony was to take place at 2 o'clock and at the appointed time the contracting parties, together with their attendants and friends, met at the appointed place, as did about 200 uninvited guests. A brass band had been provided and furnished inspiring music. When the hour arrived at which the ceremony was to be performed, it was discovered that the groom had neglected to provide himself with a marriage license. The bride and groom,

and Justice Lee S. Lake then drove to the home of Mrs. Hannah Allen and prevailed upon her to go to the office of the Probate judge and issue the necessary license. When the four or five cabs necessary to accommodate the bridal party drew up on the east side of the court house several hundred people flocked around the bride and groom as they alighted and it was with the utmost difficulty that they made their way into the court room. Here the crowd became so large that it was necessary to clear the room of all but the friends of the contracting parties. Justice Lake then pronounced the words that made them one.

The bridal party then started for the cabs that were in waiting, and on emerging from the east door of the court house found the walk leading to the sidewalk lined with people on either side, and it was necessary to pass between them in order to reach the hacks. On the way they were showered with immense quantities of rice, old shoes, etc. They finally reached their carriages and were rapidly driven to the Hungarian quarters in the West End, where a big dinner was served.

DEATHS AND FUNERALS

MRS. WM. DRUMM.

The funeral of the late Mrs. William Drumm, formerly of this city, who died Wednesday evening at her home in Clay Licking, aged 21 years, took place Friday at 2 p. m. from the Brushy Fork church. The deceased is mourned by the husband, a mother, two brothers and two sisters and a great number of friends.

GEO. W. EBERLY.

The funeral of George W. Eberly, the 16 year old son of Mr. and Mrs. John Eberly, who died in Columbus Wednesday, will take place at the late home on East Main street, Saturday at 1:30 o'clock.

MRS. JOHN WEBER.

Mrs. John Weber who died Monday at Utica, where she had lived for two years, was taken to Pittsburgh Tuesday for burial. Services were conducted by Rev. J. S. Revenaugh of Mt. Vernon. Mrs. Weber's death was due to dropsy.

MRS. MARGARET FRIEL.

Mrs. Margaret Friel, one of Washington township's oldest and most esteemed residents, died Friday, November 24, at the home of her son J. Reed Friel, south of Utica. Mrs. Friel was 73 years old. She was married to John Friel November 13, 1855, and her husband died in April, 1862. She is survived by three sons, —Samuel and Reed of Utica, and

James of Mt. Vernon, and by 16 grandchildren and three great grandchildren. She leaves one brother, Daniel Bowlby of Vanatta, and two sisters, Miss Rebecca Bowlby of Newark, and Mrs. Jane Hand of Alexandria.

Mrs. Friel had been a member of the Presbyterian church for more than 40 years, and she was a woman of fine Christian character. The funeral was held Sunday, Rev. Mr. Jones officiating, and burial was made in the Wilson cemetery near Vanatta.

JAS. COONEY'S FUNERAL.

Columbus, O., Nov. 30.—Many of his former Columbus associates attended the funeral Thursday morning of James Cooney who died of tuberculosis at Newark. The body was brought here at 8:15 yesterday and was met at the Union station by Jerry O'Shaughnessy, superintendent of the water works department of which the dead man was formerly a member, and other friends. The services were held in St. Patrick's church at 9 o'clock, Rev. Father Kelly officiating. Burial was in Mt. Calvary cemetery. On Hunting Trip.

Chas. Wheeler, well known barber of South Second street, and A. Raymond of the Ruggs Hatter works, spent Thanksgiving and the greater part of Friday in the wilds about Mt. Vernon trying to hunt Mr. Raymond is said to be a crack shot and it is understood that Mr. Wheeler went along to carry the game and actually shot a rabbit after Mr. Raymond had killed it. A least so goes the story.

Martin Bragg's Injury.

Martin Bragg, a young man living on Front street, met with a painful accident Friday while working in a carpenter shop on North Fourth street. Mr. Bragg was planing a piece of wood when the plane slipped and caught the little finger of the left hand, tearing the skin entirely from the bone on one side. Mr. Bragg fainted, but rallied later. The injury was dressed and the torn flesh replaced at once, with the hope that the cut will heal properly.

A. K. Highbarg Badly Hurt.

Bowers & Criss Bros' ambulance made a hurry run to the B. & O. shops at 8 o'clock Friday morning where A. K. Highbarg, residing at 39 North Sixteenth street, was badly hurt. Mr. Highbarg was at work in one of the pits in the new round house, when the side caved in burying him beneath the weight of dirt. Aside from many minor bruises it is believed that the right hip is dislocated. Drs. Wright and Barker attended him after his removal to his home.

Evolution of Spanking.

(An electric spanking machine is now

in use in a public school in Peoria, Ill.—

News Item.)

WE call to mind the master grim,

With horny hands of leather.

Oh, well we all remember him

When we were lads together!

For when we'd shin the orchard wall,

'Hook school or other pranking,

His bony palms would give us all

The soundest kind of spanking.

Time passed; the master feeble grew;

His palms lost force and fire,

But still our pranks were far from few;

Each day we raised his ire.

So from the schoolhouse on the hill

He plucked a cypress shingle

And spanked us one by one until

Each nerve would dance and tingle.

But, though the shingle left its mark

Until we studied standing,

Each day would bring another lark,

Despite stern rules commanding.

Our blunders made the master rave,

Our pranks were still increasing.

Until he got a barrel stove

And spanked us without ceasing.

The old schoolhouse has passed away;

Likewise the good old master.

But if he taught his class today

Perhaps he'd spank them faster.

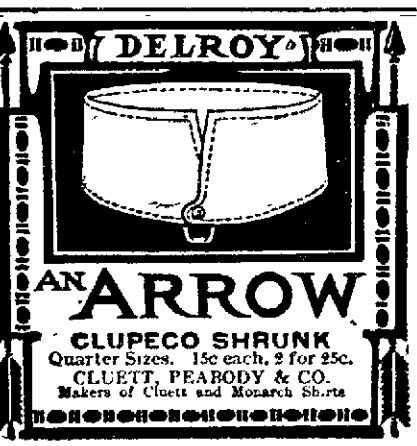

He'd touch a button near at hand

And start those paddles swinging.

Some fifty spansks each second and

Each one spak charged and stinging.

The End of Jericho's Famous Liars' Club

There Was Too Much Truth In Abijah Goodheart's Story to Continue Further Business.

[Copyright, 1906, by the McClure Newspaper Syndicate.]

W E had had a Liars' club in Jericho for over five years, and it was admitted on all sides that it had been a great benefit to the town. It met at the postoffice every night in the week, and on Saturday nights it drew farmers in from five miles around. Many of the latter would have gone to Dobbs Ferry to buy their groceries but for the club. They just loved to sit around on the barrels and boxes and hear the liars lie, and it was calculated that their purchases at the stores amounted to over \$100 a week. In addition to the farmers, whenever a peddler, a lightning rod man or a piano agent found himself within five miles of Jericho and night or Sunday coming on he made for the village, so as to be present at the meeting of the

THEY MET RIGHT AT HIS CAMP AND FOUGHT AND KILLED EACH OTHER.

Liars' club. Strangers passing through and intending to simply stay overnight at the tavern would hear of the club and stop for two or three days. The three ministers of the town had set out time after time to break up the club. Deacon Spooner was chairman and a member of the church, but when they argued and appealed and threatened to discipline he merely replied: "We are a club of liars, but we don't lie to hurt any one. They are just slick, pleasant lies, told to pass the time away and to help along the business of the town. Take away our liars and we would degenerate into a one horse burg in two weeks."

The Liars' club had passed its fifth year and was gaining on it all the time when there arrived in Jericho one day a little old man who gave his name as Abijah Goodheart. He came to look for a relative, but the person had moved away. Mr. Goodheart wouldn't have stayed beyond two days if he hadn't happened to hear of the club. His old wrinkled face lighted up with eagerness, he rubbed his hands with glee, and he wanted an introduction to Deacon Spooner at once. When the deacon was brought around the two fell in with each other, and that night Mr. Goodheart occupied the post of honor on the corner of the counter. Nine of the best liars of the club were selected to give him specimens, and as he heard them reel off their yarns his face was wreathed in smiles, and he said he hadn't enjoyed an evening so well in twenty years. When the nine liars had finished the stranger was asked to tell a whopper. He was promptly willing.

There are plenty of people yet living in Jericho who remember every incident of that story. The old man was prospecting in Colorado for gold and remained in the mountains too long. Winter found him there, and he built a shanty and had been living on the carcass of a deer he had killed when there came a snowslide. He was carried a full mile and buried under thirty feet of snow. Some logs lying on top of bowlders made an arch and thus saved him. His gun was gone, he had neither blankets nor provisions, and he realized that it was impossible for him to dig his way out. After three days of hunger he turned to his boots. They lasted him eight days. He managed to eat them down to the last inch, but gave it as his opinion that they didn't begin with cold chicken as a steady diet. After three days more of gnawing hunger he laid him down to die, but Providence was looking out for him. A grizzly bear was tunneling in from the west to get him, and at the same time another was tunneling in from the east. They met right at his camp and fought and killed each other and supplied him with food for two months. At the end of that time, during a thunderstorm, a bolt of lightning struck the snow and bored a hole down to him and let him escape. In escaping he found a nugget of gold weighing a hundred pounds and had been living on the sale of it ever since.

Of course there were a hundred little incidents connected with the story that I have not related. Taken altogether, it was thrillingly interesting, and Mr. Goodheart was given a vote of thanks and the freedom of the town. He was asked to repeat the story night after night. Word seemed to go all over the country about it, and within a week there began to be inquiries for vacant houses and real estate. Within two weeks there had been five or six

horse trades, several horns and cows had changed hands, and Alvin Johnson, the oldest man in the town, stood on the steps of the postoffice and said: "I'm a-tellin' you that a boom has struck Jericho. It's no ephemeral boom, founded upon the amount of catnip grown around here, but it's somethin' that has come to stay and make a second Chicago of our town. Let us give three cheers for our friend Goodheart. But for that lie of his we might have lived and died unknown to the world."

The three ministers got together and talked it over and then sent for the old man. They told him that he ought to be ashamed of himself and gave him a general raking down. He listened to what they had to say and then replied: "Gentlemen, I have told a story before the Liars' club. Do you receive it as a lie or the truth?" "Why, it's a falsehood pure and simple."

"Sorry to disagree with you, gentlemen, but that story is the solemn truth. I can prove every incident of it."

At that they grew more severe with him and talked about warrants and constables, and when he left them he had tears in his eyes. Deacon Spooner was sent around to see him and tell him he had better go a little slow, but his reply was: "Why, I thought you all knew that I was telling the solemn truth. There has been so much lying here that I thought I would slip in something truthful for a change."

"Say, you do it nicely!" complimented the deacon as he winked at him. "But I can prove the story to be true."

"It's the slickest lie I ever heard, and you shall receive all credit for it. Don't trade it off for any other."

Other men complimented him on his gigantic lie and winked at him when he declared he had been telling the truth, and the iron entered the old man's soul. He wrote letters to Colorado, and in the course of a couple of weeks he got affidavits as to the truth of his story. They even sent on claws from the feet of the bears. Bankers, merchants and ministers united in saying that Mr. Goodheart had never been known to tell a lie. He got all this and much more, but Deacon Spooner came around and poked him in the ribs and winked, and the ministers called on him and said that his moral example was dragging scores of men down to perdition. After they had told him this the old man went to the Liars' club and told his story once more. He took plenty of time and rung in all the old incidents and a few new ones. He was listened to with the closest attention, and when he had finished he shook hands with every liar and walked away with a mournful face on him. Several parties tried to cheer him up by saying that he ought to get a position with a daily newspaper as circulation manager, but no smile came to his face.

The next morning it was discovered that Mr. Goodheart had committed suicide by hanging himself in his room at the hotel. Three days later two men from the west arrived. They brought more proofs, and the ministers and all others had to knuckle under and admit that the old man's story was gospel truth. That killed the Jericho boom in a day and dissolved the Liars' club in a week. There was novelty in lies, but none in truth. In general, the town was conscience stricken and anxious to make reparation. Every one turned out to the funeral, a gravestone was bought by popular subscription, and when it was placed at the head of the old man's grave it bore the words: "Here lies Abijah Goodheart, but he wasn't lying when he told the story of the snowslide." NEHLS MAKES PLACE KICK FROM 55 YD.-LINE IN YESTERDAY'S GAME

Newark Defeated Lancaster by Score of 30 to 0--Lewis and Black Starred--Upson Makes Good Field General--Conley Played Good Game.

One of the most successful football seasons ever known to the local High school was brought to a fitting climax Thursday afternoon when the team under the generalship of Quarterback Upson won a glorious victory from the Lancaster High eleven at Wehrle park, amid the cheering of one of the largest crowds ever assembled to witness a high school football game in the city. The score stood 30 to 0 when the last half was finally ended, with Newark in possession of the ball in the center of the field.

Fullback Eddie Nehls, who has been a wonder all season, starred in this game, scoring 23 of Newark's points. The greatest feat ever accomplished in a high school game in Ohio was his goal from placement on the 55 yard line, the ball going ten feet over the bar of the goal posts and squarely in the middle of the two uprights. The kick was so true and so strong that it would have easily been good for ten yards more, making it all the more wonderful.

There was some difference of opinion regarding the line from which the kick was made, some claiming the ball rested on the 50 yard line, instead of on the 55 yard line. Prof. Mallor and several newspaper men who were on the east side lines when the kick was made, stated that the ball rested on the 55 yard line. There was also some dispute about the score, it being claimed that one of the goals from a touch down falling. However this would make a difference of but one point to the score, granting the failure of this goal, would be 29 points for Newark.

The nearest Lancaster could get to Newark's goal line was the 15 yard line on a fumble of a punt by one of the Newark backs, but the little team put up such a stubborn resistance that the ball went to Newark on down and was quickly booted out of danger by Fullback Nehls.

For Lancaster it should be stated that they put up the gamiest fight of any team which has visited the Newark lot this year, but it seemed that fortune favored the locals at the right moment and when the Lanks' goal line was approached, every muscle in the Newark line up was strained in the effort to force the ball over the line. The visitors took their defeat good naturedly and played football until the last blast of the referee's whistle when time was called.

Newark chose to kick off the ball, desiring to test the strength of the visitors right in the opening minutes of play. Conley tackled the Lancaster man after the ball was returned 15 yards and the Newark lads held Lancaster safe. Work was required

to punt and Upson returned the kick fully 15 yards before being tackled. He called for the forward pass and a nice gain resulted. Line bucks wetted 10 and 15 yards and after but two minutes of play, Nehls was sent crashing through the Lanks' line for the first touchdown, Bell kicking the goal.

Nehls kicked to the 15 yard line and with good interference the Lancaster back was able to return the ball on the 25 yards line. Two attempts were made to break through the local line but no material gains resulted. A punt sent the ball to Bell who returned it far enough to net a loss to Lancaster of fully 8 yards on the play.

Straight football carried the pigskin to Lancaster's 12 yard line and Nehls' play was called and he went over for a touchdown, after four minutes of play. "Tubby" failed at that goal and the score stood 11 to 0.

Upson received Lancaster's next kickoff and ran from the 30 to the 40 yard line before being tackled. Lewis and Nehls advanced the ball 25 yards and the locals were compelled to kick, gaining 30 yards on the kick, though the ball was lost.

Newark again got the ball on a fumble and Upson called for the forward pass. The play went around the left end for 30 yards, Lewis carrying the ball. The same play came around the right end for another 20 yards and Nehls was sent through on a buck for 10 yards, and Conley got eight more. This brought the ball on the 30 yard line in the center of the field and Nehls kicked a goal from placement. Score 15 to 0.

Conley received Lancaster's kick and with good interference brought the ball back for a good gain. A forward pass was attempted but the ball went out of bounds. Nehls went through the center for 8 yards and the Upson-Nehls combination dropped back for a place kick which was good for 30 yards. A combination end run and forward pass by Lancaster resulted in the man carrying the ball being tackled behind the scrimmage line for a good loss.

Newark took the ball on downs and the forward pass was called again but was fumbled and Lancaster got the ball. Newark tried the double pass or a sort of criss-cross play worked by the half-backs, and Lewis carried the ball for a gain of 40 yards. In this play the runner had the biggest part of the team for interference. A line shift combined with the forward pass play netted a good gain, but the ball was fumbled and went to Lancaster.

Lancaster saw how successfully the Newark team worked the forward

pass racket and tried it themselves, but the ball was awarded to Newark because the ball was not passed five yards one way or the other from the center.

Nehls' play was called and he went through Lancaster's right tackle for a good gain, leaving the Lancaster players scattered in his wake. With a clear field ahead of him except for the Lancaster quarter who was playing well back, Nehls shook this man off and ran 25 yards for a touchdown. Upson was after him, to keep away any straggling Lanks and Nehls thought he was in danger of being tackled. When within five yards of the line, he fell and rolled over the goal line for five points. Black kicked goal. Score 21 to 0.

The ball was kicked off by Lancaster to Newark, but before the teams could line up for scrimmage, time was called, and the first half was over.

Between halves fully 200 High school boys and Newark rooters thronged onto the field and heaped congratulations upon the heroes of the game. Each man came in for his share of the pounding on the back, and Conley and Nehls were especially lauded. A march was then commenced around the field of play, singing school songs and yelling and blowing horns and flying pennants.

The Newark team was fresh and confident when play was called in the second half. There was none of the bravado which was evident in the Mt. Vernon game. The men realized that Lancaster was not to be trifled with and every man worked hard. Lancaster was benefitted by her rest and it required every effort of the local linemen to keep the Lancaster line from breaking through.

Conley received the kickoff but on the first play Newark was unable to gain. A place kick was called for and the Lancaster line broke through Newark's defense and blocked the kick, a Lancaster man falling on the ball. Lewis broke through the Lan-

caster line and tackled his man for a loss and the Lanks were held for downs. Bell made 15 yards on the forward pass and Lewis carried the ball for another good gain. The double pass was again worked, Conley passing the ball to Lewis who carried it for a gain of 15 yards. Another attempt at place kicking was blocked and Newark lost 30 yards on the play. Upson made a pretty tackle of a Lancaster man.

The visitors tried the forward pass and lost the ball, as it hit the ground before being touched. It was tried twice by Newark, and both plays resulted in losses. Lancaster took the ball and on two plays, Conley and Ramsey made star tackles, downing their men for good losses. Nehls' place kick from the 40 yard to the 10 yard line, Lewis tackling the Lancaster man almost before he could recover from catching the ball. Lancaster was compelled to kick and Upson signalled for a fair catch.

Then came Nehls' sensational kick. The line of scrimmage was on the 45 yard line and Upson fell back fully 10 yards to receive the ball. The two teams were squarely in the center of the field, and the ball went high and straight for the goal posts. It cleared the bars fully 12 feet and was directly in the middle of the posts. A rousing cheer went up from the big crowd as the umpire declared a goal. Score 25 to 0.

Conley again received the kickoff from Lancaster and returned the ball, with good interference, 20 yards. In the next scrimmage, Halfback McClintock, who had been playing a good game for the visitors, was injured and gave way to Fink.

Bell carried the ball 25 yards again on the double pass and Lewis went 20 more on an end run. Conley carried the ball over for the last touchdown, Nehls failing on goal. Score 30 to 0.

Upson received the kickoff and after two attempts to advance the ball on bucks, Nehls tried another kick, which was blocked. Gleichauf made a pretty tackle of the man who got the ball on a block. Lewis tackled the Lancaster man behind his line on the next play. Lancaster decided to try the place kick racket, but the ball went wide and barely lifted over the heads of the line of scrimmage, Conley getting the ball and making a good gain. Lewis received the ball in a forward pass and gained 30 yards, and Nehls went through for 15. The next attempts to advance were blocked and Nehls kicked. The ball went behind the goal line but not through the uprights. The ball was brought out by Lancaster and kicked from the 25 yard line, Upson signalling for a fair catch. Instead of trying for goal from placement, which was the thing to do, Newark tried to carry the ball when there were but a few seconds of play left. Time was called while Newark was lining up for the scrimmage.

The game was the cleanest ever seen in Newark. There was not a penalty for fouling and only once or twice were misplays made in the rules by the players. Referee Van Voorhis had control of the game, the Lancaster official being satisfied with letting the Denison man make decisions in all cases. Line up and summary:

STATE WHIPPED OHIO MEDICS

OHIO STATE NOW UNDISPUTED CHAMPS OF OHIO BY YES. TERDAY'S GAME.

Case Lost to Reserve in Hard Fought Game at Cleveland—Other Turkey Day Games.

Columbus, Nov. 30.—Guided by their ambition to unquestionably win the football championship of Ohio for the season of 1906, the Ohio State University team, with a record that will be always pointed to with pride, met and defeated the peerless eleven in representing the colors of the Ohio Medical University on 'Varsity field, Thursday afternoon by a score of 11 to 8.

A more perfect day could not have been wished for, with a clear sky that made a good field and the general weather conditions such that fully 9,000 enthusiasts passed through the gates to witness the battle.

But the Tigers were defeated and their skins nailed to the fence to dry, although they died game. Between the two teams, it was hard to pick as to which was the best, but the difference was but three points. There is one thing certain, "Jack" Means, the chinky quarter for the Medics, left a record that will be hard to equal, kicking goal from the 52-yard line that made the thousands of spectators yell themselves hoarse, regardless of their college affiliations. All of the scoring was made in the first half.

The Medics, by the grace of Means' good right leg, sent it over the 45-yard line, after there had been a battle royal that ended bringing the ball back to where it had started from. Ohio State, seemingly spurred on by the work of the Medics, began to play in earnest else they should lose their laurels, and it was but a short time that the ball was on the Medics' 5-yard line, brought there by plays in which Barrington, Tracy and Seiser, for the scarlet and gray, were the stars. The first try for a touchdown failed, but it went over the second time, and Lincoln missed an easy goal. Means kicked to Seiser. It was pelted back and forth until Seiser after the Medics held for downs on the 15-yard line, got the ball and scooted around the Tigers for a touchdown. Lincoln kicked goal. It was but nine and a half minutes' play for the end of the half when Means made his remarkable kick of 52 yards, bringing the score to 11 to 8, and the crowd went wild.

The second half was such an exhibition of skill that is rarely seen on the field. It was back and forth, first on the Medics' field, then back on the territory of Ohio State, until finally the whistle blew with the ball on the Medics' 45-yard line in possession of State. At this juncture there was a mad rush for State's players, who were carried from the field on the shoulders of the enthusiasts, while the state championship pennant was raised on a pole near the gate, and the crowd cheered until their lung power gave out.

The officials were Referee—Hoagland, Umpire—Wrenn, Head Linesman—Dringlis.

Reserve 10, Case 8.

Cleveland, O., Nov. 30.—For the first time in six years the football team of the Western Reserve University defeated the Case School eleven in the annual Thanksgiving Day contest, yesterday, by a score of 1 to 8. Case was the favorite before the game, and of the 7,500 noisy people present only a few thought the two-time holders of the state championship could possibly be defeated. Put Reserve showed better generalship and did faster work. Before 20 minutes of play Reserve scored its two touchdowns, each time failing to kick goal. Case scored a touchdown and goal at the close of the first half, and added two points by safety during the second half.

Massillon 9, All-Westerns, 4.

Chicago, Nov. 30.—The football game here yesterday between the Massillon, O. Tigers, and the All-Western eleven was won by the former by a score of 9 to 4.

Both teams were made up of former college stars, the Massillon eleven being much the heavier. The game, especially in the second half, was rough-played. Heston, formerly of Michigan, sustained a fracture of one of the small bones of the right ankle, and Roseth, formerly of Wisconsin, received a dislocation of the right shoulder.

In the first half the scoring of the Massillon team was made by Davidson, who scored a drop kick from the 20-yard line. In the second half Hare

scored a touchdown and goal at the close of the first half, and added two points by safety during the second half.

Polo enthusiasts were crazy with

delight last night when it was learned

that Newark had taken both games

from the Utica polo team, the first in

the afternoon by a score of 2 to 1 and

the evening game by the close score

of 2 to 2. In the evening it was necessary

to play an extra period to decide

the contest. This extra period

went 20 minutes before Newark suc-

ceeded in caging the winning goal.

Afternoon Game.

Neither of the two teams were in-

familiar with the style of play followed

by the other and this game was made

very interesting to the spectators.

Utica scored in the second period when

First Rush Sulback caged the first

goal. Neither side scored in the first

period so perfect was the work of the

goal tenders.

In the third period Newark went in

with the grim determination to win

the game in that frame. It was the

work of but a few brief minutes for

Heath to cage a goal and Barker

quickly followed with another, which

was sufficient to win the game. Heath

showed the Utica bunch a few points

Christian Science Lecture.

A lecture, on Christian Science, will be given under the auspices of the First Church of Christ, Scientist, of this city. Like every new religious movement, Christian Science has been subject to misrepresentation and it is the purpose of these lectures, not to mislead, but to correct as far as possible the erroneous ideas which are due to a misrepresentation of this religion. The lecturer will be Edward A. Kimball of Chicago, Ill., member of the "Christian Science Board of Lectureship" of the First Church of Christ, Scientist, in Boston, Mass. The public has had the pleasure of listening to this scholarly speaker on one or two previous occasions, and will no doubt, welcome the opportunity of hearing him again on other phases of his chosen subject. Special invitations will not be issued but all are cordially invited. Friday evening, November 30, 8 o'clock. Admission free.

Charged Him For His Cyclone Experience

"I STARTED out in life with a firm resolve to be honest," said the Boston driver, "but one day when I have bumped up against a station that shook my resolution, I was in Texas last summer. I was stopping at a village hotel and the cyclone hit. Horse and harness were blown away. I found myself in a room with a cyclone board, and I found a cyclone house up and made in physical of it. There were ten people killed and twice that many injured. I had to lie up with a fever for a week, and then resumed business. "It never occurred to me until a month later that I ought to have set that my hotel bill before departing. "The landlord had been one of the killed and the town about wiped out, but so heavy did the thing prey on my conscience that I made a trip of a hundred miles to square things. I found the landlord's widow, and she was willing to take my word as to how long I had been a guest when the cyclone swooped down. I figured it up and paid her the proper amount, but she seemed to be getting on her mind. When I told her to speak no more."

"This settles the hotel bill. It right, but what about the experience?" "How do you mean, madam?" "Why, didn't there ought to be at least a dollar more for your cyclone experience?" "I agreed with her and handed over the greenback, but the more I think of it the more I am inclined to believe that it was pushing an honest man a little bit too hard."

Because He Has To.

HARVEY SHERRITT SAVED CHILD FROM BURNING TO DEATH

Little Emma Cochran's Dress Caught Fire at Stove but
Prompt Action of Well Known Barber Saved
Her at Injury to Himself.

J. H. Sherritt, better known as "Harvey" Sherritt, a barber employed at the S. E. Forsythe shop, proved himself a hero Thanksgiving day and as a result is suffering from very painful burns about the hands. Mr. Sherritt saved Emma Cochran, the 8-year old daughter of Mr. and Mrs. Will Cochran of North Fourth street, from painful burning and possibly from death.

Little Miss Cochran was sent to the Schimpf grocery on Third street, Thursday morning about 8 o'clock, and while waiting in the store, stood with her back to a stove. The door of the stove was warped and it is supposed that some of the wearing apparel of the child hung over the stove door. Her clothes caught fire and before she had realized what was happening, flames were shooting above her head. Mr. Sherritt observed

the blaze just as the child started to run. Quickly realizing the seriousness of the situation Mr. Sherritt rushed after the frightened child, and catching her before she could get out of the store, began fighting the flames. His overcoat was wrapped about the child's face so she could not inhale the flames, and before he could extinguish the blaze, most of the child's clothing was torn from her, and Mr. Sherritt's hands were badly burned.

The child was burned scarcely any, owing to Mr. Sherritt's presence of mind, but was taken to her home badly frightened. The hero of the accident went to a nearby drug store where his burns were attended to. He was able to be at his post Friday but his hands are so badly burned that it will probably be several days before he can resume his work.

roduced by Senator Harper of Cincinnati.

When the Board of Trade committee made its trip to Columbus to appear before the commission it was assured that Chillicothe would be visited. Since then, however, the statement has been given out that the hospital would be located as near the center of the state as possible, and Newark seems to be that point.

EXTENSION TO BE MADE.

At Vernon, O., Nov. 20.—By the action of the Electric Street Railway company in beginning a survey for a promised extension to a proposed site, the doubt about the new State Tuberculosis Sanitarium being located here is removed. Work will begin on the buildings as soon as the extension is completed.

UNDERSTANDING AMONG LEADERS

Concerning Legislation at the Next Session of Congress.

MAY PASS IMPORTANT BILLS

Philippine Tariff Reduction Measure and the Ship Subsidy Proposition to Be Pushed Through, According to Putative Arrangement—Secretary Wilson's Annual Report.

Washington, Nov. 30.—Two important bills that have been stalled in congress for some years will likely be passed during the session that will be convened Monday. It is stated authoritatively that an understanding has been reached in this matter among leaders of the senate and house. These measures are the ship subsidy bill and the Philippine tariff bill. A third measure figures in the deal—the river and harbor bill, which has always had to fight its way through congress against considerable odds. The states bordering on the Mississippi have been the chief stumbling block in the way of the subsidy bill in the past. These states are badly in need of money for the improvement of sundry creeks and rivers, and it is said that an agreement has been made to pass appropriations for these improvements in return for support from interior states for the subsidy bill.

An increasing surplus in the treasury will help the chances of all three bills. Congress, for several reasons, is averse to letting the surplus pile up in vaults. Advocates of subsidy have been working in its behalf ever since the adjournment last summer. They realize that it must be put through the house during the coming session or postponed indefinitely. The measure passed the senate last session and it has only to be accepted by the house. It takes more time to pass in the senate a bill that is opposed. Hence the chances of the Philippine tariff bill, which passed the house last winter and was pigeonholed in the committee, are not so good as those of the shipping bill.

In his annual report to the president, Secretary of Agriculture James Wilson says that much progress has been made by the farmer in the sciences and arts of agriculture, aided by the researches of the department. The farm products of the year have a value of very nearly \$6,500,000,000, nearly \$500,000,000 above the value of 1905, and exceeding by over \$2,000,000,000 the figures for the last census. Corn remains by far the most valuable crop, estimated at \$1,100,000,000. Next comes the cotton crop, which, including seed, should be worth to the growers nearly \$640,000,000. The value of hay, third in order, approaches \$600,000,000. Wheat, the fourth, may be worth \$450,000,000; oats, \$300,000,000; potatoes, \$150,000,000. Barley, with a value of \$65,000,000, shows a gain of 21 per cent in production in the past seven years. The tobacco crop will be worth \$35,000,000.

SHOCKED

Was Pierpont Morgan When Told News of Spencer's Death.

New York, Nov. 30.—News of the death of Samuel Spencer in the Southern railway wreck reached J. P. Morgan just as he was about to enter Grace church. When the news of his friend's death was told him Mr. Morgan turned deadly pale. "Sam Spencer!" he almost shouted. "My God, man, is Sam Spencer dead?" He trembled until his limbs almost gave way. Several friends, thinking he was about to collapse, ran to him. "This is a terrible shock," Mr. Morgan said, when he had somewhat recovered himself. "I can't say anything now. I was never so shocked in my life." A friend helped the financier to a carriage, and he was driven home.

THAT MUTINY.

Only a Protest of Stokers Who Alleged Poor Rations.

Norfolk, Va., Nov. 30.—Men from the cruisers Tennessee and Washington, which conveyed President Roosevelt on his trip to Panama and back, while in Norfolk declared that the alleged mutiny on the Tennessee occurred while the cruiser was being coaled on the isthmus for the return trip homeward and not during the trip. They said the men on the Tennessee, alleging poor and unsatisfactory rations, refused to coal the ship. The marine guard was ordered out, and, according to the men here, the marines stood with pointed guns threatening to shoot the first man who quit his post during the coaling of the cruiser. The coaling was in this way completed, and as a result of the alleged "mutiny" 100 men were placed in the brig. These, however, were released when the homeward start was begun. All is now declared to be quiet on board the cruiser Tennessee.

NO SATISFACTION

Obtained From Sultan by American Minister Mr. Gummere, Who Has Left Fez.

Tangier, Nov. 30.—The American minister, Mr. Gummere, is reported to have left Fez, the capital, Nov. 26, without obtaining satisfaction from the sultan in regard to the claims for indemnity made by citizens of the United States for alleged outrages or assurances regarding the safety of American citizens resident in Morocco.

PISTOL DUEL

Street Fight in Kansas Between Negroes, One Man Fatally and Two Badly Injured.

Leavenworth, Kan., Nov. 30.—In a street duel with pistols between two negroes here, James Sanders, a coal miner, was fatally wounded and Richard Nichols, a negro deputy sheriff, and Thomas Gray, also a negro, were dangerously hurt. Nichols and Sanders quarreled over a card game. Later they met on the street and opened fire. Sanders was shot in the back and abdomen and Nichols was shot in the groin and arm. Gray, a bystander, who had no part in the fight, was shot in the abdomen. Nichols was taken to jail and Sanders and Gray are in a hospital.

EDMUND BERKELEY

General Agent of Seaboard Airline Dies in Hospital as Result of Operation.

Philadelphia, Nov. 30.—Captain Edmund Berkeley of Atlanta, general agent of the Seaboard Airline Railroad company, died at a hospital here as the result of an operation performed three weeks ago. Captain Berkeley was prominent in railroad circles and was 59 years old.

HITCH IN DEAL OF ARCHIE WHITE

Cincinnati, Nov. 30.—There is a hitch in the negotiations for the leasing of the Cincinnati, Newport and Covington Light and Traction company's property by an Eastern syndicate, represented by Archibald S. White.

Before Mr. White left for St. Cloud, Minn., about two weeks ago, he left a written proposition for the leasing of the properties. While none of the directors of the over-the-river companies will talk on the matter, yet it is a state secret that the terms offered in writing by Mr. White do not entirely suit the directors and that a communication to that effect has been sent to Mr. White. Better terms are wanted. Mr. White will be here next week.

Complaints From Congo.

Rome, Nov. 30.—Catholic missionaries in the Congo independent state, especially Jesuits, sent to the vatican grave reports concerning alleged atrocities and misgovernment there. The missionaries added it would be advisable to make prudent use of these reports, as enemies of the state wish to employ them for political purposes.

Million Acres For Colonization.

London, Nov. 30.—A report was current in this city that the British South African company offered the Salvation Army 1,000,000 acres of land in Rhodesia free of charge for colonization purposes. General Booth admitted that there was a certain amount of truth in the rumor, but said that the plan had been prematurely disclosed. He declined to commit himself to any statement of details because, he said, the plan might still fall through. If it were carried out, however, he said it would be a great thing and most interesting to the public.

Melody Won.

Boston, Nov. 30.—"Honey" Melody of Charlestown won the welterweight championship of the world from Joe Wolcott of Boston, at the Lincoln Athletic club in Chelsea. In the twelfth round Wolcott quit. He said later his left arm became disabled in the ninth round, and that it was impossible for him to continue fighting.

Seven Soldiers Killed.

The Hague, Nov. 30.—An official dispatch from Dutch Guinea announces an encounter between a detachment of Dutch troops and a strong band of Alfours, who were traveling from Kansas to Fakfak. Seven soldiers were killed and one officer and six men were wounded.

Victims of Explosion.

Dortmund, Germany, Nov. 30.—The explosion of the robutite factory near Annen resulted, so far as is now known, in the deaths of 40 persons. Many others were so seriously injured that there is no hope of their living. Many persons have not yet been accounted for.

PRINCIPALS IN THE VAN ALSTYNE DIVORCE CASE.

MRS. ISABELLE W. VAN ALSTYNE

New York, Nov. 30.—Guy Chase Van Alstyne, a broker, faced a jury in the Supreme court Wednesday and Thursday before Justice Leventritt to defend the action of his wife, Isabelle W. Van Alstyne, for a divorce, and in doing so not only refuted her accusations as to his relations with Mrs. Katherine P. Newman, also known as Mrs. Allison but told that differences had resulted in a separation between himself and his wife.

He was in the witness chair several hours. He is boarding at the house of Mrs. Newman. At the time he and his wife parted an agreement of separation was entered into, setting forth that because of the "unhappy differences" that had arisen between them they would live apart and he would contribute a regular sum toward her support.

Van Alstyne testified that he first met Mrs. Allison in Salt Lake City in June, 1904. He next saw her in this city in November of that year. Until January, 1905, he said he had never taken Mrs. Allison out to dinner or to the theater alone. When he went to board with Mrs. Allison he had his

GUY CHASE VAN ALSTYNE

referred to by a negro nurse as his room. Van Alstyne declared that he slept there only when he returned home late, so as not to disturb the baby boy.

"Did you ever have your pajamas in Mrs. Newman's room?" inquired Mr. Dittenhofer.

"I never did," he replied. "Did you ever hear of them being found there?"

"Not until this trial," was the response.

He testified that he always had his clothes in his own room and had never taken breakfast in Mrs. Newman's room.

"Did you ever buy a piano for Mrs. Allison?" asked the lawyer.

"No, sir," he said.

"Did you ever promise to buy her a piano?" was asked.

"No, I did not," he said.

SENATOR ATWELL WOULD DOUBLE AIKEN LIQUOR TAX

Columbus, Nov. 30.—Senator W. L. Atwell of Licking county, will introduce at the next session of the state senate a bill increasing the Aiken law on saloons from \$1,000 to \$2,000. He is said to have secured promises of support for the bill from several of his colleagues.

Though over a year will elapse before any amendment can be offered to the Aiken law, it is already evident that the announced intention of the brewers to try to cut the tax in two will be met by a counter attempt to double it.

Will Advance Wages.

Salt Lake City, Nov. 30.—Announcement was made that the operators of 13 mines in the Bingham district, employing about 2,000 men, would advance the wages of their employees on Dec. 1. The amount of the increase is to be determined by a committee of operators.

INCOME TAX

Select Committee to Consider Graduated Tax Issues, Report—Admits Many Difficulties.

London, Nov. 30.—The select committee appointed to consider the practicability of graduating the income tax and of differentiating between earned and unearned incomes has issued a report to the effect that the graduation is practicable in incomes not exceeding \$7,000 and that differentiation can be made in incomes not exceeding \$15,000. The committee suggests also the imposing of a super-tax on incomes exceeding \$25,000. It admits, however, that there are many difficulties in discriminating between earned and unearned incomes.

Engineer Killed in Cab.

Iowa City, Ia., Nov. 30.—Engineer O'Brien was found dead by the fireman in the cab of a westbound Rock Island passenger train, which was running 50 miles an hour at the time. O'Brien's skull was crushed, supposedly by some projecting timber.

Work of Cracksmen.

New Haven Conn., Nov. 30.—After binding and blindfolding the watchman, seven masked men entered the store of A. N. Farnham, a market gardener of Westville, blew open the safe, secured \$500 in money and made their escape without leaving a clew to their identity.

SPECIAL TRAIN

Carried 87 Prisoners to Atlanta—All but Four of Prisoners are White Men.

Atlanta, Ga., Nov. 30.—A special train from Washington brought 87 convicts to the federal prison here. The train was switched to the prison, several miles from the center of the city, and the prisoners were transferred to their new quarters. With the exception of four negroes, all the prisoners were white. The trip from Washington was without special incident.

FRANCE'S POSITION

Warships Ordered to Tangier in Accordance With Agreement Arrived at With Spain.

Paris, Nov. 30.—In the chamber of deputies Foreign Minister Pinchon announced that French warships had been ordered to Tangier in accordance with the agreement arrived at with Spain and known to and approved by all the powers. The squadron will sail at once. The government's action, the minister added, did not imply any idea of intervention, but was purely protective. Continuing, M. Pinchon said: "It is impossible for us to leave our countrymen at the mercy of bandits investing Tangier or abandon to others the task of protecting Europeans."

MAYOR SCHMITZ

Due to Appear in Judge Dunne's Court Next Monday to Answer Charge of Extortion.

San Francisco, Nov. 30.—Mayor Eugene Schmitz, who has been placed under arrest on a charge of extortion, spent the day receiving friends who called to see him at his home. Visitors came and went continuously. The mayor is due to appear in Judge Dunne's court next Monday to answer five charges of extortion.

MRS. TAGGART THINKS MAJ. TAGGART CRAZY

Wooster, Nov. 30.—One of the attorneys in the Taggart divorce case received a letter from Mrs. Grace Viola Taggart, in which she declares that Major Elmore Taggart, who was granted a divorce from here several months ago, after a sensational trial, is insane. Mrs. Taggart is now in France.

In her letter in a newspaper clipping which says Major Taggart, who is now a patient in Bass hospital, Toledo, will proceed to Manila for observation and treatment.

"This," says Mrs. Taggart, "means that he is crazy, and goes to show that what I suspected at the time he was arrested and confined at Fort Leavenworth, was correct."

RESIGNATIONS

Of All Senators and Representatives Desired by Magoon.

Havana, Nov. 30.—Governor Magoon has issued an invitation to all the senators and representatives chosen in the last election to attend a conference in the palace Saturday morning for the consideration of affairs of urgent importance. The governor declined to divulge the object of this meeting, but Liberal leaders expressed the belief that the governor intends to request the resignations of all senators and representatives as a first step in the direction of preparing to hold new elections.

Chief Pollock Talks.

Washington, Nov. 30.—An emphatic contradiction was made here by G. F. Pollock, chief of department B, interior department, of allegations in the affidavit made at Salt Lake City by Michael A. Myndorff, a special agent of the government, that Pollock had instructed Myndorff to destroy four affidavits he had procured against the Union Pacific Coal company in the coal land fraud investigation in Utah.

Education Bill.

London, Nov. 30.—Although it has been feared that the recent speeches of Premier Campbell Bannerman and A. J. Balfour had closed the door to compromise on the education question, when the education bill reached the report stage in the house of lords minor concessions were made on both sides and Lord Lansdowne, the opposition leader, delivered a conciliatory speech. The utmost diversity of opinion, however, still prevails as to the fate of the measure.

Run Over by Omnibus.

Paris, Nov. 30.—General Henry Clay Young, one of the oldest American residents of Paris, was run over by an omnibus on the Boulevard des Italiens and sustained injuries to his legs and at the base of the skull. General Young is 85 and on account of his age there is anxiety as to whether or not he will recover.

TROLLEY CAR HIT BY ENGINE

Eighteen Persons Injured in an Accident at Dayton, Ohio.

FIGHT FOR LIFE FOLLOWED

Little Girl With a Shotgun Blows Off Brother's Head—Heroine Loses Life at a Crossing—Aged Prisoner Released From Pen—General Intelligence of the Buckeye State.

Dayton, O., Nov. 30.—Eighteen persons, suburbanites, were injured here when a traction car on the Dayton & Xenia line was struck by a Big Four freight engine, which was backing out of Union station. None of the injured, it is believed, will die.

The accident occurred at midnight at Ludlow street crossing. The engine, traveling at a good speed, struck the car almost in the center and, lifting it from its bent and twisted trucks, hurled it into Ludlow street, fortunately out of the path of the engine. Immediately the air was filled with cries of pain and terror and the interior of the wrecked car became a fighting, struggling mass, in which those passengers who were not injured fought to get out into the open air with the recklessness of madmen. The car was soon emptied of those of its passengers who were able to care for themselves.

As soon as everybody saw the danger had passed a search was instituted for the missing. The car was filled with people, many of them women, the majority of whom had fainted, either from injuries or their fright.

Served Twenty Years in Pen.

Columbus, O., Nov. 30.—George Holverstott of Greene county, serving a life sentence for murder, received the Thanksgiving pardon. He served 20 years and he is gray-haired and feeble. His sentence was for the murder of a neighbor in a dispute over a dog. All that Holverstott saw on the way to Union station—buildings, street-cars, automobiles, etc., were like glimpses of fairyland to the old farmer. The noise and bustle bewildered him, and he wanted to reach the shelter of the station as soon as possible.

After G. A. R. Encampment.

Cincinnati, O., Nov. 30.—Cincinnati may entertain the next national encampment of the Grand Army of the Republic. Dissatisfaction with the decision made at the recent encampment, held at Minneapolis, to meet next year at Saratoga, N. Y., is spreading throughout the country, and a flood of protest against the selection of that city is reported as being sent to Commander-in-Chief R. B. Brown of Zanesville.

Juvenile Tragedy.

Chillicothe, O., Nov. 30.—Grover and Kate Wilson, aged 15 and 16, children of Ripley Wilson on Richmond, were playing soldier in the yard. The girl carried an old musket and, not knowing it was loaded, leveled it at her brother's head. The charge of buckshot tore off the top of his head, killing him.

Heroine's Sad Fate.

Creston, O., Nov. 30.—In trying to save her girl friend from death in front of a fast Erie passenger train here, Nellie Carter, the beautiful 19-year-old daughter of Judge Carter, was struck by the train and killed. Miss Nettie McIntyre, whose life Miss Carter tried to save, was uninjured.

Suicide of Railroad.

Cincinnati, Nov. 30.—Haunted by the fear that he might make some mistake and be the cause of a frightful wreck, Oliver Page, a day foreman in the Baltimore & Ohio Southwestern yards, committed suicide by shooting himself through the temple. Page was 40 and married.

Farmer Run Down.

Coskooton, O., Nov. 30.—While driving to the residence of his aged mother to take dinner, Siegel Emerson, 40, was instantly killed at Newcomers-town by a fast Pennsylvania train. Emerson was a well-to-do miller.

Lack of Coal.

Mayfield, Ky., Nov. 30.—Four factories, three newspaper plants, a foundry and various other concerns were closed down here because of lack of coal or power. Several hundred people will be idle for the balance of this week. This is the worst coal famine that ever existed here.

Mayor Dyer Dead.

Providence, R. I., Nov. 30.—Mayor Elsha Dyer of this city, and former governor of Rhode Island, died suddenly of heart trouble.

Vatican's Denial.

Rome, Nov. 30.—Vatican officials denied a rumor published in the French press to the effect that the pope has sent instructions to Cardinal Richa d. archbishop of Paris, regarding the attitude of the French clergy and the faithful, which the press declared would be read at the meeting of the French episcopacy.

S.S.S. PURIFIES THE BLOOD

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs, impurities and poisons. As long as it remains uncontaminated we are fortified against disease and health is assured; but any humor or impurity acts injuriously on the system and affects the general health, or culminates in some special blood disease. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid, or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood diseases that continue to grow worse as long as the impurity or poison remains in the circulation. Some persons are born with an hereditary taint in the blood and we see the effect manifested in various ways. The skin has a pallid, waxy appearance, the eyes are weak, glands in the neck often enlarged and usually the body is not fully developed or strong, because it has always been fed on weak, impure blood. In all blood troubles S. S. S. has proved itself a perfect remedy. It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of taint, purifies and strengthens the weak, deteriorated blood, supplies it with the healthful properties it needs and establishes the foundation for good health. Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all blood diseases and disorders are cured permanently by S. S. S. Catarrh of the Stomach

A Pleasant Simple, But Safe and Effective Cure For It. COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a fall or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, fickle appetite, nervousness and a general play out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston, the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the ing backward into the throat reaches poisonous discharge therefrom passing the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion. Catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals. Send your name and address today for a free trial package and see for yourself. Address F. A. WORLD MAP SHOWING PRINCIPAL AREAS SUBJECT TO EARTHQUAKES.

Round Black Dots Show Active and Extinct Volcanoes, Soliflatus and Fumaroles. Dotted Lines Show Regions Subject to Earthquakes Varying in Intensity According to Shading; Unbroken Lines Show Supposed Subsidence Now Proceeding.

PALO ALTO, CAL., Nov. 30.—Professor T. J. J. See, in charge of the naval observatory at Mare Island and professor of mathematics in the navy, has developed a new theory regarding the cause of earthquakes which he believes will create a stir in the scientific world. He says:

"The cause of earthquakes has remained obscure, and I think you will agree with me that our final object will not be attained until we have discovered the nature of the forces which produce these disturbances of the earth's crust."

"Having labored during the last six months on the cause of earthquakes, I am happy to tell that the results reached appear to account for all the known facts by the most obvious of causes. I purpose, therefore, to give

you an account of the cause of earthquakes.

"First. The cause of earthquakes is the leakage of the ocean beds and the formation of steam within or just under the earth's crust, which explodes toward the land, pushing up the mountains parallel to the seashore, as in the Andes.

"Second. Volcanoes are developed when the steam breaks through in this process of relief, which may be in a crevice, but usually is at the top of a peak, where the crust is broken in the upheaval of the mountains. The fact that all the active volcanoes are situated around the seashore or in the sea shows that volcanoes depend in some way upon the sea, and the additional fact that 999 parts of 1,000 of all the vapors emitted by volcanoes is steam

proves that water seeping down into the earth is the sole cause which sustains volcanic activity.

"Third. The fact that mountains like the Andes are so exactly parallel to the seashore shows that they too depend in some way upon the sea. All mountains were parallel to the sea when they were first formed, but in some cases the seashore has since receded and is no longer exactly parallel to the mountains. When the lava is expelled from under the bed of the sea by earthquakes it is pushed under the adjacent land and breaks the overlying strata into a ridge, which in time becomes a great mountain range parallel to the seashore.

"Fourth. Islands in the sea are formed in the same way. The sink holes noticed in the bed of the sea near certain islands are made by the

subsidence of the ocean bottom after the foundations have been undermined in the elevation of the islands. Plateaus are raised up in like manner by the injection of steam saturated lava from their several sides.

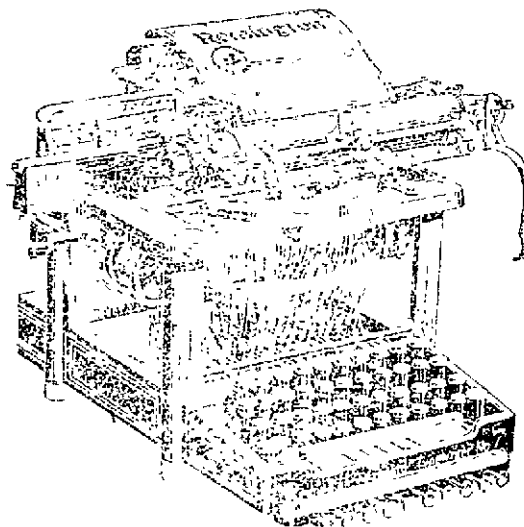

"Fifth. The feeble attraction of mountains noticed in geodetic operations for nearly 200 years, but especially in recent triangulations of the earth's surface, is to be explained by the pumice—steam saturated lava dried up—which fills the mountains and thus renders their attraction unexpectedly small. Pumice has great strength but very little mass, and while it will support the mountains, it makes them attract as if they were hollow.

"Sixth. Great sea waves following violent earthquakes usually are due to the sinking of the sea bottom after

the lava has been expelled in the elevation of the adjacent mountains. This subsidence of the ocean bed withdraws the water from the shore in the interval immediately following the earthquake, and when it runs together to fill up the depression in the sea bed it piles up into an aqueous mountain or ridge, which then subsides and flows back to the shore as a great wave to add to the horrors of the earthquake.

Actual subsidence of the sea bottom following the 1902 eruption of Mount Pelee, and in numerous surroundings necessitated by the repair of the ocean cables has been repeatedly observed, but heretofore the cause of the subsidence has been quite obscure. The real cause is that the sea bottom has been undermined by the expulsion of lava which formerly supported it."

COULD WE LIVE 100 YEARS

The Secret of Long Life is Not in How We Eat, But in What We Eat.

Most people wouldn't want to exist for that length of time, but most of us want to live, to say at least seventy-five years, to enjoy the well-earned rest of toll.

We can't live even to that age unless we take care of our stomachs.

The American has a longer life now than he had 50 years ago—statistics say so, and it must be true.

Why is it? Not because he works harder, but because he takes greater care of his machine—his body machine.

He has learned that it is a sin to overwork and burn out the stomach with too much heat producing material—meat, for instance.

Heat is not strength, it is weakness.

Muscle and bone is the strength we need. The heat part will then come naturally and never be excess. Let us not hunt for it.

The hot stomach makes the brain hot.

The hot brain makes dullards of the quick.

Wheat!

The purest wheat, the wheat with the starch, the albumen and the fibrin! This is the fighting material millions are buying today.

Wheat grains have a shell. The shell is not good to eat. You cannot digest it.

It makes the stomach work overtime.

Buy the purified wheat, the nearly grain from which the chaff, the hull and the husk, and everything not rich and delicious is thrown out.

That is Hardyfood.

Every part of it is consumed by the body and taken into the blood to make tissue.

It doesn't make clinkers but it will make you over.

It will give you a new stomach, and clear out your kidneys. What will be the result? You will have better digestion, no constipation, full nutrition.

You will endure hardship better because it will give you power and strength in muscle and brain force. Your mind will be clear, active and healthy.

Hardyfood is cooked ready to serve.

Eat it with cream, you will find it delicious.

The stomach grabs at it, that is why it satisfies you.

Remember that Hardyfood has all the good that meat has, and three times more.

Meat has a small part of what wheat has, and three times less.

But you needn't stop eating meat altogether. A little now and then is needful. But cut down your allowance and try Hardyfood.

From the time you try your first package of Hardyfood, your history will begin.

Your grocer will sell you a package for 10 cents.

ENGLISH NAVY MUTINEERS' RUSH FOR BARRACK GATES.

There were stirring and unexpected scenes during the recent mutiny of British seamen at Portsmouth. On the night of November 4, when the men in Portsmouth barracks were mustered for dismissal, there was some slight unruliness, as the men objected to standing in the rain. The officers recalled them to the gymnasium to give them a lecture on discipline, and the usual command, "O men but one obeyed, and the incident seemed to have closed. But later, in the canteen, some one shouted, "On he kneel," and immediately a riot ensued. The officers' quarters were attacked and many windows were smashed. The disturbance was repeated in the two following nights. One hundred and fifty men were put under arrest, and the incident

A New Kind of Food a Better Kind of Flavor

Aren't you tired of tasteless Breakfast Foods? Wouldn't you be pleased to find one that was new—different—better—one that would remain new and good indefinitely? Toasted Corn Flakes are that kind of food. They are delightfully thin, light and crisp, with a flavor more delicious than you ever imagined could be put into a breakfast food. Ask your grocer to send you a box of Toasted Corn Flakes for trial. Let the children have all they want. No food is so beneficial to health and strength—none so agreeable. Ten cents at all grocers.

The school levy given opposite each township applies to all the property of the township school district including the attached territory formerly joint sub-districts of other civil townships.

THE ABOVE TABLE DOES NOT INCLUDE SPECIAL ASSESSMENTS.

DOG TAX.—In addition to the foregoing tax, there is levied a per capita tax of \$1 on male and \$2 on female dogs, payable in one installment at the December collection.

SPECIAL NOTICE.—Road receipts must be brought in on the December collection, and can only be taken at the time, and on the property, on which tax is being paid.

Remember, in asking for taxes that property stands on the Treasurer's books in the name of the owner on April 9, 1906. Taxpayers will avoid trouble and save time by bringing the last tax receipt, especially so if they have sold or purchased property within the year.

When asking for amount of your taxes by mail please state clearly in whose name and in what township or town, school district or ward, the property is located, and whether real or personal, each time you write. Enclose stamp for reply.

LIQUOR AND CIGARETTE TAX.—Liquor tax, payable one-half, December 20, and one-half, June 20, year ending fourth Monday in May, 1907. Cigarette tax payable June 20, annually.

WHEN DUE.—Section 1091 of the Revised Statutes of Ohio, requires one-half of the tax charged on the duplicate, exclusive of Road Tax, together with the same, to be paid on or before the 20th day of December, 1906, and the remaining half on or before June 20th, 1907.

All persons having failed to pay their taxes last June will see that they are paid before the 20th day of December, so that they may not be advertised as delinquent and offered for sale on the third Tuesday of January next, thereby saving trouble and expense.

Taxpayers will carefully examine their receipts and see that they are paying taxes on all their property, as a separate tax receipt must be issued for property located in each of the taxing districts.

While every effort will be made to accommodate parties paying taxes, taxpayers are urgently requested to call early and pay their taxes, and thus save themselves and the Treasurer much time and trouble, and prevent a disagreeable rush at the close of the season.

IMPORTANT.—Payment of taxes with check or checks, is by courtesy of the Treasurer only. When checks are received for taxes and not paid on presentation, the taxes will be restored to the duplicate without notice, and receipts given declared null and void.

The Treasurer's office will be open from 8 to 11:30 a. m. and 1:30 to 4 p. m., standard time. The remainder of the day is absolutely necessary for other essential clerical duties.

Office closed on all legal holidays.

C. L. V. HOLTZ,
Treasurer Licking County.

3 N. Third St.

Don't fail to attend the Orphan's ball this evening. There will be an amateur concert and a pie eating contest in connection with the regular vaudeville bill. Two prizes will be awarded. Remember the beautiful roller chair to be given away Saturday evening and two pairs of roller skates Saturday afternoon to ones holding the lucky coupon tickets.

An extremely clever compromise between the warring factions in tailormaking is effected in the model by Perdoux that appears here. On the one hand, the demand of the plain and severe, almost masculine effects is observed in the slightly mannish cut of the coat while the exigencies of the dressier type, known as the demi-

tailleur, make themselves apparent in the richly-braided waistcoat, the embroidered buttons and the extreme, though graceful, fullness of the skirt.

The vogue that attends the combination of plain and plaided goods is observed in the use of a smart shade of sapphire blue chiffon broadcloth for the coat, and a plaided broadcloth in which this same color is the dominant tone, for the skirt. The latter is further enhanced by an overplaid effect in a black satin s'ripe, which serves to block out the squares of soft blue coloring. No touch of the plaid appears on the coat, where the revers are faced with black satin, and bands of the same serve to make a border all around the coat skirts and cuffs.
